

A Service Provided by the  
CALIFORNIA HOMEBUILDING FOUNDATION

## CIRB REPORT

### **Research is our middle name.**

Since 1954, CIRB (Construction Industry Research Board) has been the most accurate and reliable source of residential and commercial building permit information for the State of California.

A statistical service provided by the California Homebuilding Foundation (CHF), the CIRB Report produces monthly and annual publications, as well as customized data reports, containing building permit information for all 58 counties and 538 incorporated cities.

### **Real permits. Real data. Real easy.**

CIRB offers a variety of affordable Subscription Services and One-Time Orders catered to our clients' specific research parameters, delivered in a consistent and timely manner. Some of CIRB's most popular features include:

- Annual Building Permit Reports going back to 1970, available on the CIRB Online Store.
- New Development in California Reports (prepared by the California Economic Forecast)
- Energy Reports of HVAC changeouts, EV charger stations, and solar permit statistics.
- Housing Unit Forecast Reports by county in a 3- or 5-year outlook.
- Comparison and Year-to-Date residential and commercial statistics.
- Summarized or detailed categorical permit data by city, county or Metropolitan Statistical Area (MSA).
- A monthly, comprehensive California Construction Review, and much more!

### **Building permit data without the building permit hassle.**

CIRB reports have been utilized by organizations and institutions nationwide in a variety of professional domains including new home construction, real estate, industry trades, research and development, law, economics, education and government, among others.

### **Let's talk numbers (permit numbers).**
