ABOUT THE DONALD CHAIKEN BUILDING INDUSTRY TECHNOLOGY ACADEMY (BITA)

BITA is a project-based construction education curriculum that introduces high school students to the many rewarding career opportunities available within the homebuilding industry.

Through instruction in jobsite safety, tool handling, and building practices, BITA helps students develop valuable skills and professional attitudes while inspiring them to discover the pride and purpose that comes from building homes and communities.

We sincerely hope you'll become a sponsor of our Building the Future Event and join us in investing in the future leaders of our industry.

SUB-ZERO GROUP WEST HAS A FRESH NEW LOOK!
